For sweet Mia.

Twisted

Owlfish

And

Diamonds in the sidewalk

People walking

Square corner wine

Burning ground

On the horizon

I’m a misdemeanor

Suicide

Bridal inconspicuine

May love her
Or
Kill her first

Opinions
Assflutters
Stinky stinking stink

Three days rotten dishes
Flood kitchen sink

Tomorrow
Comes

Before today

Upside

Downside

Tragedy in play

Suburban Death

No quarter
No blessing
Cold war
Frozen greets

Unrecognizable
Dark sweater
Streets

Staircase stronger
Longer than then
Shapes shaped shaping

Moon broken again

No singing June
No dancing swoon
A melody dies
On runaway spoon

Arms beckoning
Deadly reckoning
Swift demise
Mouthful flies

Chilltown

Blood creeps slow
On frozen ground
Soft sweet cuddles
Flee as bound

Cigarettes gum
Girls of street
Shine unfaithful
Green silver treat

Tied up stride up
Best it gets

Hatchet downdrop
Guillotine preps

High side dreaming
Lost in clouds
Drugged out scheming
Day coffee crowd

Rudely Truncated

When was it
How was it
The only it
The one true true
Eternal spring

Tangled and tumbling
No other words
Sweetly whispered
Nothing turds
Daybreak nightfall
Passed in a whirl

One life
One love
Girls aflame
Who said
What said
Touch and twirl

When thighs
And crevices
Spoke voluminous
Too too soon
Gone to gloom in us
Cold below

Dormant rotting
Glimmer gone
Black streaks blotting

Ragged and torn
Short squat microbus
Entropy effigy
Long past luminous

Time in Tokyo
Persian cat
Breaking news
Brain fry splatt

Take the knife
Wind the rope
Slit slash split
Bleed out dope

Nature Twined

lost in shadows
tangled in a haze
chasing highs
to numb the pain
playing games with fate
it's time to escape
caught in the net
of a merciless flame

burning bridges
with every dose taken
ready to break free

to find a way back home
broad light sprawling
core strength forsaken

greenwoods
rain scent strong
sunlight speckling
rain beaded grass blades

christmas berries
withstand full sunlight
tolerate serpentine based
adobe soils

line the meandering paths
invade every space
color the surroundings
taste awful

contain cyanide compounds
denote the dangerous beauty
of nature
better for birds

christmas berries their favorite
no birds about
foliage denuded trees

stretch in proud display
toward the grasping sun

shame the foliage full
trees as uncomfortable
body image types
these full leaf trees
do right to ignore

the narcissist denuded
In the near distance
the vast
evanescence lake

yawns and glistens

mallard ducks
honking geese
peaceful swans
diving deep for food

perimeter flanked
by wooden bridges
earthward
asphalt paths pothole replete

some beneficent strangers

thoughtful no doubt
planted boot prints
in the wet asphalt

now displayed
eternal wanderlust
further
deeper
onward

berms appear
ten feet high
berm land

we trek on
through brush
and bluster
a prismatic
multilateral day

unpredictable
like a clockwork orange
dark threatening clouds
linger overhead

a darker grey
is breaking through

a lighter one
high contrast
sunlight streaming anew

rain obstinately present
yet settled
taciturn
embraced by clouds
languorous
in its cloudy churn

sullen
plotting

thunder roars
shattering silence
pustulant sores

Finger Pocket

Liquid legs
Pitch blue night
New York woman
Berlin fright

Wind is whipping
Trees shake dance
Meth hold gripping
Zombie trance

Evil bloody
Bashful brides

Murder mayhem
Quickened strides

Gripping pistols
Clank and snap
Barrel gleaming
Bullets thwap

Enigmaticized

Old

Beautiful

Full of mystery

Oysters in the pocket

Haven't learned much

3,000 miles from nowhere

And 1,000,000 miles beyond

Pop-up eyes

Eyes of Horus
Keep thee well
Thine sun and sky

Lavish parties
Representing life eternal
The quest for youth

Keeping opinions to self
Hating to be in the spotlight
Invisibility the goal

Cleanse the aura

Remove the haunting element
Hole in the bread
Holes in the head
Holes holes all around

Cool breath
Hot nights
Know not what to do

Spectral voices
Narrow choices
Night becomes
Day becomes night

Hammer Down

Needs a little work

Needs a new well

Yard needs tending

Weeds

They get the better of everything

Nails coming up on the porch

Can hammer them back down

Tree won't blossom

It's not spring

Up and died

By your slender form

Eternal cry

Conjoined Skins

Parvati

Shiva

Devotion

Destruction

Was under her thumb

Then I cut them off

Now she's a powerless

Thumbless

Malgoon

Things do not fit together

Perfectly

All is ragged messy

Rotations

Rainbow of annihilation

Raining downstream

A recycline river

Of

Pestilential blood

All colors

Fade

To gray

Suspended

Fragment art
Start to start
Pieces trickle down
Skin to skin
Face to face
The muses race to town

Dangling from a spider web
Death and life are mine
Forever spins the color wheel
Storming cuss and whine

Daily is a daily thing

No need to belabor

The sun and moon both play their roles

Time itself the savior

So rejoice rejoice rejoice dear friends

Rejoice yes one and all

Heed the sound

Heed the wind

Heed the universal call

Gift is given day has dawned

Another chance for reason
The sadness river
Will drag us down
Each and every season

Stand up stand up rise up
The time it is at hand
What matters most
And means the most
Is where we truly stand
Is where we truly stand

Unbound

Cockadroop manor

Open for business

Betrayal

Infidelity

Winter

Ice

Snow

Cold

The winter journey

A forest
Long time
Unbelievable

I am the messenger
Mourning
Since the day
We met
Reckless ingratitude
In a cold water tub
All night
-40F
Dying

Dimmer
Dimmer
Getting dimmer

See the shadows
Deepen
Darken

Same game
Same winners
Same losers
Lunacy

Firethorn

i am fire

and fire

and piss

and vinegar

and fire

and fire

and piss

and piss

and vinegar

and fire fire fire

fire and raging storm

and stomping rage

rage and rage
rage rage against the machine
rage against the walls
rage against life
rage against everyone
rage against those i love
a raging unsupportable beast
raging
rampaging beast
and i cannot stand it
cannot stand me
can find nothing likable
about me at all

in a hell of my own making
i am sickened
how can i see anything
but the fire shadows
if i’m never allowed to move my head

Crepitation

relatives crawling out of the
shallow end of the gene pool
everybody is on edge

in the wind
of
a howling blizzard
it happened

the water was so warm
i didn't want to leave
but leave i did

into the dark
into the forest
into the frost
now
in my quickly fleeting memory
the water is warmer than ever

Strictures

through measureless caverns

the sweet fragrance of grass
wafting over us

down to a sunless sea

entranced by the narrow

silvery fish wriggling in the pools

the cold water washing over our
ankles

beauty attracts the unsought

repels the desired

you angelic you nonplussed

Totaliation

Wide open Ranch room

Dusty

Scattered

Decrepit

A widow surrounded

By ragged

Defeated

Surrendered equipment

Surrounded by the dead

At each one

Drinks in front of them

Forced sardonic smiles

All is normal
As abnormal is the way
Sex Pistols
God Save the Queen
Blaring in the background
Squatters not the exception
But the rule
All residences abandoned
Vacated
Building
Standing by faint tendrils only
No overriding authority
To each his own

Each body an island
The space it inhabits
Seized as its own
Byronic
A desperately sad actress
Lives in the floor below
She settled into
A pleasant distal sleep
An alpine goat leading
The way
She was dangerously
In arrears
Unhappy

Bunnies
On the
Attack
Crying bananas
Where is state capitalism
Will never be political freedom
Balkanization
Takes hold
Comme ci
Comme ça
Perfumed & powdered
As your great aunt burns
In the soft clouds of a dream

Mind Tripping

She was
Sunshine
And
Rainbows
I was
Cotton candy
And
Tambourines

In the swirl
Dance and twirl
We gave as we received

Then we lost
The script
Slipped
Or
Tripped

Private language corrupted
Even Duolingo
Could not bridge
The divide

Cursed and cursed
Squashed even in dreams

Maybe psychokinesis
Could draw us together
Vanish the clouds
Change our briny weather

Maybe Maybe

If shoulda
Woulda
Coulda
Turned back time
Mended our crimes

Much time elapsed
No way back
Linear circularity
The unbending rule

Tragic clowns
Straight drop down
Foggy eyes
Love forsaken fools

Obsessed

I have robbed the towns
Clawing desperation
Seeking
Hungering

Then eyes opened
Blessed with honey

So soft
Gossamer fine
Roaming shadow
Cryptic smile

Want to possess you
Completely

Gathering flowers
In city of thieves
Celestial jade
Billowing sleeves
A deserted valley

Desire overload

We talked
We laughed

We hugged
Sweet sweat

The shaping mouth
The quantity of breath
The gestures bodied forth

Each thought
Made the drowned voice
Almost articulate

Your white voluptuousness

Your magic fingers
Superior touch

Climbing
Trembling
Finding
Longing petal flesh

Dream of fragrance
Miracle of sound
Subtle art
Unbound breasts
Seeking caress

My ravished attention
Drew me in
Moth to deadly flame
Memory
Does not deceive
The past

Tic tic tic
Tiny noises of compression
Weighted desire
Pulse of eternal knowledge
Sensing the oneness
In debt to the devil

Sweet Rain and Lovely

Barefoot in the snow
Hatless in the rain
Naked in the summer sun
Who you were back when

Searching for a reason
Reaching out for you
Seasons break and crawl
Haven't got a clue

I fell under your spell
And I broke as I fell

Sunrise tomorrow
Brings seasonal sorrow
Love is pain and sad charade

You bring me

Sweet rain and lovely
Just a shade or two
Sweet rain and lovely
All in all you do

For Sweet Mia

The morning light
In your dewy eyes
Suppresses your rage
Kicked around daily
Pushed aside gruffly
The blatant cruelty age

Daylight chill
The bitter pill
To be swallowed
And vomited forcefully

When did it flee

Has the day really passed

Where this love treated you tenderly

In his throes of passion

He moans and grunts

As you stare blankly at sad sky

No soliloquy fine

Or prevailing fashion

Could unpack

The reasons why

Maybe this is all love ever was
Maybe no more than this
Neither diamond ring
Nor embroidered veil
Just a poisonous midnight kiss

But the sun rises and sets each day
Rain falls on dogs, cats, and bees
You can hit the road
See where it goes
Any which way you please
Any which way you please…
